

# Theodore Roosevelt

On a cool October morning just as the leaves were falling from the trees, I was born! The year was 1858. Throughout my life, I accomplished many things. I was most famous for becoming the President of the United States, but before I became president, I was an author, naturalist, soldier, explorer, and historian.

My family was born wealthy, so I had many advantages that other boys my age did not have. I got to attend the prestigious Harvard College. My inauguration, or when I officially became president, was in 1901. While president, I successfully helped the executive party, Panama Canal, and won the Nobel Prize.

You may think my face looks familiar. Have you ever heard of Mount Rushmore? I am one of the 4 presidents who had the honor of being placed within the stone.
